

SANAKO Lab 300

SANAKO Lab 300
– A Leading-Edge
Language Teaching Solution

MODERNIZE LANGUAGE TEACHING

Educational institutions worldwide are recognizing that the teaching and learning of foreign languages is as important today as ever. The challenge facing many language educators is how to make their language teaching programs reflect the importance of language in their students' lives.

Intensive Foreign Language Exposure

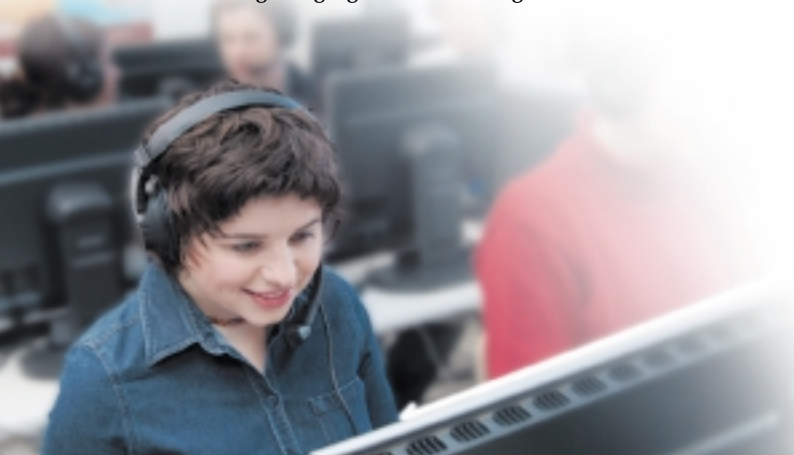

Language teachers know that extensive exposure to a foreign language is the best way to learn it. With its digital recorder and outstanding audio quality, SANAKO Lab 300 provides teachers and students with a variety of tools, exercises and learning modes to increase opportunities for listening, speaking and interacting in the foreign language without leaving the classroom!

Flexibility and Freshness in Teaching and Learning

Develop teaching materials using text, video and sound to engage students fully in the language learning experience. This PC-based language teaching solution makes use of the latest technology to deliver teaching material and exercises in fresh and contemporary formats that appeal to students.

A Competitive Edge for Language Teaching Programs

Display your school's commitment to providing the best resources for language teaching by adding value to the curriculum with Sanako Lab 300. The exceptional sound quality and range of tools available to teachers and students have made Sanako Lab 300 the language teaching solution of choice for a number of institutions wanting to stand out as premier and modern locations for students wishing to study foreign languages.

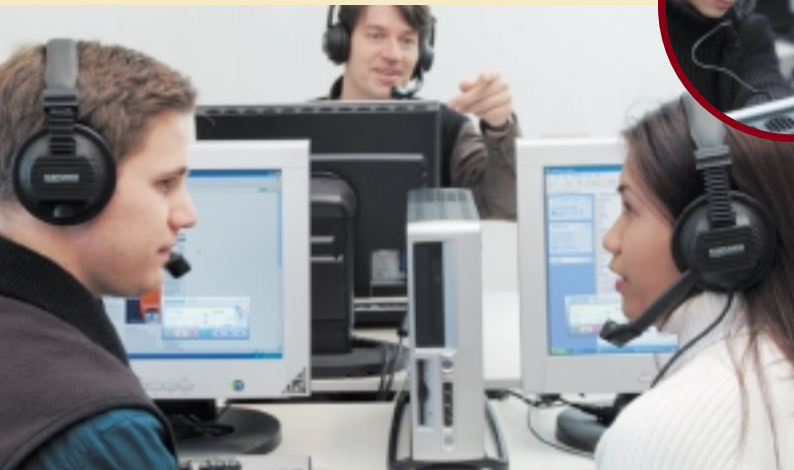

SANAKO Lab 300 – A Modern Solution for Language Teaching

- Use CDs, DVDs, VCRs, cassette recorders, satellite and video distribution systems, or the Internet to add depth to your lessons
- Master the user-friendly interface – access many different teaching tools and exercises using one integrated application
- Ensure that all students are engaged in language learning at the same time
- Focus your attention on individual students or groups of students as needed

SANAKO Lab 300 – Enhancing Performance All-round

- Gain flexibility in language teaching with the modular system
- Develop and maintain content libraries
 - convert analog sources to digital formats
- Measure and track students' performance
 - conduct tests and analyze results
- Maintain teacher involvement with monitoring and interaction tools
- Use remote control for program sources

Develop Effective Oral Exercises

SANAKO Media Assistant Duo is a stimulating, interactive tool that helps students develop their speaking skills in several ways:

- Playback content
- Record your own speech for comparison with master track
- Practice simultaneous translation
- Record responses to questions and quizzes
- Subtitle audio and video files

The Language Lab of Your Dreams

Manageable seating layouts; easy communication with individual students, groups or the entire class; classroom management tools; a media library; student recordings; video subtitling features; testing tools; opportunities for students to work independently or to communicate in pairs, groups or with the teacher; access to multimedia teaching material – all these features combine to make Sanako Lab 300 the language lab that teachers could previously only dream of.

SANAKO Lab 300 – User Reviews

"Active engagement for all students is at the heart of this system. Teachers now have the ability to see and show their students' screens, or they can use PowerPoint presentations, we can use the weather forecasts, there are many possibilities for group work."

Karsten Stephan, Language College Director, AldermanWhite High School, Nottinghamshire, UK

"I think the children have responded to the new facility rather well and they want to go into the lab all the time. Our teaching and learning methodologies are literally being transformed through using the equipment."

Debbie Joshua, Head of Languages, West Island School, Pokfulam, Hong Kong

SANAKO Educational Solutions

The Sanako family of educational products combines the best of technology with outstanding sound quality to answer teachers' needs in a variety of teaching environments, ranging from dedicated language teaching labs, to multimedia and virtual classrooms and classroom management tools. Sanako Lab 300 is a high-end, PC-based multimedia and language learning center with classroom and resource management capabilities.

SANAKO in Brief

SANAKO Corporation is the new and unified brand that represents 40 years of experience in developing language teaching technology as Tandberg Educational, Auditek, Teleste, and Divace. We are the global technology leader in producing high-end language labs. With a customer base of over 16,000 institutions in more than 100 countries around the world, our quality language teaching solutions have been well known for their technological innovation, flexibility, and scalability.
